

HWHVCGB

Thank You to the Committee for asking me to judge this breed that I am so fond of and have had an association with for almost three decades. I would also like to thank my 2 super stewards who quietly and confidently got on with the job in hand and made it easy for me to concentrate on judging the classes.

My findings on the day were positive in the fact breed type has improved, but alas the breed is not a vizsla with coat on. Some broad skulls and short muzzles, a few untidy mouths. I was surprised to find some exhibits lacking muscle tone, as this aids the movement and holding the skeleton together.

I was more than happy with most of my winners and in some classes was spoilt for choice.
